

EVE Battery Cell product line

# **EVE Energy has announced a strategic partnership with Ai-Bess Technology and Bravo Motor Company Brazil to pioneer high-quality battery solutions in Latin America and the Caribbean.**

2024-01-11

**FOR IMMEDIATE RELEASE**

CES, Las Vegas, USA - Huizhou, China - Belo Horizonte, Brazil

January 10th, 2024

The trio strategically seized the occasion of AI BESS's inaugural showcase of its premier end-user mobile storage system at CES in Las Vegas to unveil this pivotal partnership. The alliance is poised to revolutionize the energy landscape of Latin America and the Caribbean.

EVE Energy Co., Limited, a global leader in advanced battery solutions, proudly unveils a groundbreaking collaboration with Ai-BESS Technology Co., Ltd and Bravo Motor Company Brasil Energy S.A., a Brazilian corporation. This strategic partnership, focused on the distribution, sales, and after-sales service of EVE's high-quality battery products in the Latin America & Caribbean region, also emphasizes Bravo Motor Company's pivotal role in developing the first Gigafactory in Latin America.

In this transformative collaboration, Ai-BESS Technology Co., Ltd and Bravo Motor Company Brasil Energy S.A. will play integral roles as key partners for EVE Energy Co., Limited in the region. The primary objective is to introduce EVE's high-quality battery products, ensuring superior distribution, sales, and after-sales service. Additionally, Bravo Motor Company Brasil Energy S.A. will play a crucial role in advancing technology infrastructure and developing a complete supply chain in Latin America.

Through this strategic partnership with Ai-BESS Technology Co., Ltd and Bravo Motor Company Brasil Energy S.A., beyond delivering top-tier battery solutions, this collaboration signifies a major milestone with Bravo Motor Company's development of a complete supply chain in Latin America, empowering and giving autonomy to the group. This initiative aligns with EVE's commitment to technological advancement and sustainable growth in the region.

As a Brazilian corporation, Bravo Motor Company Brasil Energy S.A. brings valuable insights and experience to the Latin American and Caribbean markets. The collaboration extends beyond battery distribution, with Bravo Motor Company actively contributing to the technological landscape by spearheading the establishment of the first gigafactory in the region.

"We are pleased to join forces with EVE Energy Co., Limited and Ai-BESS Technology Co., Ltd. Our commitment goes beyond batteries; we are proud to announce the development of a bold solutions platform for energy storage in Latin America. This endeavor reflects our dedication to advancing technology infrastructure and fostering innovation in the region," added Eduardo Javier Muñoz, CEO of Bravo Motor Company Brasil Energy S.A.

Ai-BESS Technology Co., Ltd will play a crucial role in coordinating exports from China and supplying technology to Bravo Motor Company Brasil Energy S.A., facilitating the manufacturing of high-end energy storage systems in Brazil.

An impressive 40' BESS with over 4.4 MWh capacity, the product will be available for the whole region through this partnership.

"In this partnership, Ai-BESS Technology Co., Ltd is honored to play a key role in coordinating exports from China and supplying cutting-edge technology to Bravo Motor Company Brasil Energy S.A. This collaboration will enable the manufacturing of high-end energy storage systems in Brazil, contributing to the growth and innovation of the region's energy solutions," mentioned Tom Xu, CEO and Founder of Ai-BESS Technology Co., Ltd.

The partnership agreement, effective from December 20th, 2023, to December 31st, 2026, solidifies the commitment to delivering high-quality battery solutions, advancing technological infrastructure, and enhancing the customer experience in Latin America & the Caribbean.
